6 ACCESS TRANSFER AND PROGRESSION (INCL. RPL)

Optimum governance includes provisions relating to ATP (Access, Transfer, and Progression), and Recognition of Prior Learning (RPL).

6.1 Access

Access to Optimum programmes is predicated on the learner being able to evidence minimum educational achievements and competencies (e.g. numeracy and literacy). These are advised to learners in our promotional materials, on our website, and during learner induction.

6.2 Transfer

There are no internal transfer options since Optimum only offer one major award programme. However, many of our programmes involve minor awards which learners can use towards other major awards with other providers. The Optimum Training Management Team will assist learners to identify such transfer opportunities.

6.3 Progression.

Optimum offers several programmes whose credit can be used by learners towards major awards at higher levels on the NFQ. The Optimum training Management Team will advise learners of the potential progression routes on a case-by-case basis.

6.4 Recognition of Prior Learning.

Recognition of prior learning refers to the possibility of gaining entry to a programme in circumstances where compliance with the entry requirements may not be evidenced in the usual way. This may arise for example, in the case of a non-Irish citizen who may not have taken the Junior or Leaving Certificate examinations.

It may also refer to the possibility of gaining advanced entry to a programme (whereby modules or assessments may be exempted).

There is also the possibility of obtaining a full award without having to undertake the modules or the assessments. Note: Optimum does not offer RPL for full awards. Should such a request be made by a learner, Optimum will have to liaise directly with QQI for guidance.

All of the above are predicated on the learner's ability to furnish a verifiable portfolio of evidence to Optimum which will clearly demonstrate that the learner meets the requirements for entry, advanced entry or exemption.
